

Post-Trip Lesson Plan Social Life

- I. Grade level: grades 3-5
- II. Objectives:
 - a. To understand human interaction and social requirements in 1898.
 - b. To examine Florida history in relation to social activities.
 - c. To learn about the architecture that housed various social activities.
- III. Standards:
 - a. Sunshine State Standards(2006):
 - 1) Social Studies: Time, Continuity, and Change: Standard 2: Understands various aspects of family life, structures, and roles in different cultures and in many eras.
- IV. Vocabulary:
 - a. Church: a building, often with a steeple, used for religious ceremonies.
 - b. Circuit Riding Preacher: a preacher that preached for several regions. He would often be in town for once a month, in between his visits a local farmer would take over his duties.
 - c. Congregation: a gathering of people who have assembled for religious purposes.
 - d. Sermon: a speech discussing a moral issue, often using religious scriptures or text, and was the highlight of the church service.
 - e. Hymn: a song of praise or glory usually song to God or a Deity.
 - f. House Raising: social gatherings held in order to construct a house for a neighbor. The men would construct the house while the women serve dinner.
 - g. Rail Splitting: a social gathering held in order to construct a fence for the neighbor's yard. A split-rail fence is a type of fence constructed out of logs, usually split lengthwise into "rails".
 - h. Hog Killing: A social gathering for men. The men go hunting to kill a wild boar.
 - i. Land Clearing: A social gathering that cleared the land surrounding a neighbor's home in order to protect the home from fire, so the family can see dangerous animals, and so the family can spot local hunting game in the sand surrounding the house.
 - j. Surprise Party: This was a gathering of neighbors, unexpectedly, for enjoyment and socializing. One family would have their neighbors over for a "Surprise Party" but would secretly tell them a couple of days in advance so they could get ready.
 - k. Quilting bee: A social gathering for women. Several ladies would gather in another's home to make a quilt for the lady hosting the gathering.

Activity 1: Worksheet: The Church

- V. Materials:
 - a. Worksheet: The Church
 - b. Construction paper
 - c. Crayons, colored pencils, markers

- d. Glue and/or tape
 - e. Scissors
 - f. One per student: empty cardboard juice or milk carton, or a Chinese food box.
- VI. Procedures: Read the history of the social life to the students in your class. Then hand out the worksheet: The Church. The students are to read the historical information provided on the worksheet then create their own church and social event. Students can construct the church by using the cardboard container as their base and attaching sheets of construction paper to create a wood board pattern, and then further decorations may be added. On the bottom of the worksheet is a section where the students can create their own social activity. They can do this using the information from the history you read them and also by looking at the worksheet: Social Games.
- VII. History:
- a. Sundays were set aside as a day of rest in the days of Florida's pioneers. The families would take a break from their daily work, get dressed in their best outfits and make their way to the community church. Families often traveled by wagon or horse and buggy, sometimes they would walk if necessary.
 - b. The preacher was often a local farmer who worked during the week and preached on Sundays. It was also common that the preacher would travel to multiple towns and preach to a different congregation each week. As he traveled, he received room and board from local settlers.
 - c. The services would often last several hours. Singing was a very important aspect of worship. The congregation would sing the hymns without any musical accompaniment and often from memory if there were no hymnals available. Some larger churches, or churches with wealthy members, would have a pump organ for music.
 - d. After the services, the families would come together to socialize and enjoy a large meal together. Each family would bring a basket of food to share. They would eat together and then relax and delight in each other's company. The children would use this time to play games together. The church was also used for public meetings and social gatherings.
 - e. Often the town would only have a single building for both the church and the school. Furthermore, various social events such as town meetings would be held in this single building. Local news was exchanged and business was done before and after services.
- VIII. Assessment: Their construction of the church can be graded based on accuracy, creativity, and effort. And the student's social event can be grade based on completion and historical accuracy.
- IX. Open-Ended Questions:
- a. What are the purposes of churches (the building) today?
 - b. What functions did the church have in 1898?
 - c. Describe the types of social events we have today.
 - d. Explain the types of games you play at these social events.

Post-Trip Lesson Plan Game: Beetle

Instructions: Read the rules of the game below then play the game with your classmates. Use the space below to draw your beetle.

Beetle (20th Century United States)

This game requires two dice, paper and pencil. Each player selects a number between one and six and writes it on the top of his piece of paper. Each player in turn then throws the dice once. If he rolls the number previously selected, he may draw a section of the beetle on his paper. If he rolls a double of his selected number, he may draw two sections. Each time he rolls his number, he takes an additional turn. (*First, draw the head, then the body, the eyes, the feelers and then the six legs one at a time*). The player to get his number 12 times will have finished his beetle and is the winner.

Post-Trip Lesson Plan The Church

Instructions: Read the history of the Church building at Cracker Country. Then create your own church using the historic information and the picture below. Be creative and imaginative. Once finished complete the worksheet below.

History: The Church at Cracker Country was originally built in the 1900s in Gretna, Florida, located in Gadsden County. The structure is built of heart pine lumber and served as a one room schoolhouse until 1946.

Architecture: Buildings were constructed out of wood during this time period. Churches were often one room much like school houses. Also, the buildings would not have two sided walls, meaning that the wall that you see on the outside is the wall you see on the inside; there is no drywall or paint. These buildings would not have air-conditioning but would use open windows to stay cool in the summer and a wood burning stove to keep warm in the winter. There was also no electricity in these buildings, meaning events would not be held after sun down because there would be no good lighting methods.
